

## **Sustainability Committee**

To facilitate the development, implementation, and management of Santa Rosa Junior College's Strategic Plan Goal E and establish a culture of sustainability that promotes environmental stewardship, economic vitality, and social equity throughout all district sites.

- Promote sustainability across the five spheres of sustainability: Economics and Social Equity; Education and Culture; Facilities and Grounds; Energy, Waste and Water; and Transportation and Access
- Monitor and provide input to district-wide policies and projects, especially construction, renovation, and purchasing, to assure implementation of green practices and principles, in coordination with the District Facilities Planning Committee (DFPC)
- Network with campus and community sustainability organizations and develop student trainings, events, and internships; coordinate with Student Sustainability Committee
- Create professional development opportunities related to sustainability for faculty and staff
- Oversee and promote environmental education at SRJC, including supporting the development of environmental courses and majors, administering the Global/Environment AS requirement, facilitating the Environmental Forum course, awarding Foundation scholarships, and assisting faculty across all disciplines to incorporate sustainability issues into their curricula
