## PRPP Timeline

Requested: Academic Senate Endorsement

### Background:

For accreditation purposes, we should complete a full PRPP cycle by the spring of 2019. We could, a) require all sections of all PRPPs to be complete in spring of 2018, b) require them all to be done spring of 2019, or c) specify which ones are to be done in 2018, and which in 2019.

### Proposal:

Instead of the above options we, the Chair of the PRPP committee, Jane Saldaña-Talley, and the Academic Senate President, Eric Thompson, propose that all sections of PRPP be open for editing, and that each author/editor works at their own pace to complete all the sections over the next two academic years, to be complete in the spring of 2019.
