Projected Savings (In the Project Application)	\$ 105, 273		1017	\$103.51

For the Future!

Though the Textbook Affordability Act has officially run its course, we are not finished.

- We are still encouraging faculty to do Open Education Resource (OER) Reviews for a \$400 stipend.
- We are still holding PDA sessions to spread the word about OER's.
- As the Textbook Affordability Act Campus Coordinator, I still communicate with the program coordinators at the state level to keep up to date with future developments. There is more on OER's yet to come!
