

Consent Explanation for 2019-2020 Goals Draft

Dear Senators:

The Senate's goals for the year are on the consent calendar. The consent calendar exists for us to quickly pass things that are non-controversial and are a second reading of the item. The basic idea of the goals has been presented and discussed. I have added, at the request of a member, examples in the right column of un-accomplished goals of the past two years.

Please read carefully before Wednesday's meeting. A yes vote to adopt the consent calendar means that the document will be officially our goals as written.

Anyone can pull something from consent. Doing so means that you want to discuss it. If you think it is important to discuss it further, please feel free to request it be pulled. But please don't do so if you don't have a specific reason and are prepared to discuss that reason. Thanks.
