

## **Areas of Representation, Bylaws Article VIII: Election Code, Section 5**

*Shall the Executive Committee convene a workgroup of Senators to review and, if needed, recommend possible changes to the departments included in areas of representation?*

Click here to see the [current list of Areas, and departments included in each Area](#).

Possible Goals of this workgroup:

1. Ensure that Areas representing the contract faculty have a roughly equal number of contract faculty members per Area: total number of contract faculty members divided by 11 (number of Areas).
2. Ensure that Areas representing the adjunct faculty have a roughly equal number of adjunct faculty members per Area: total number of adjunct faculty members in the Senate electorate divided by 2 (number of Areas).
3. Recommend possible groupings of departments so that Areas are comprised of departments with related (or not unrelated) disciplinary content.
4. Recommend possible groupings of departments in Areas in order so that Areas are more balanced in regards to demographics and diversity.
