DISCUSSION

1. *Constitution/Bylaws Workgroup: Revision*

Senator comments included: confusion to Article VIII, Sec. 2 about the reduction of the nomination period and suggested at least three weeks or leave as is (30 days); Article III, Sec. 4, A. states “one at-large senator” and needed clarification what is definition of “at-large” in this context; Article II, Sec. 2, N. recommended moving to Section 1 so entire Senate could weigh in, comments in opposition included: hiring committees usually have a quick turn around and it would delay the hiring procedure; AS president often does not have any control over the hiring timeline; and current practices include consultation with ASEC. Time expired and the topic will be brought back at the next meeting.

2. **Strategic Plan: Goals and Objectives*

VP Ohkubo opened the discussion by inviting Senators to discuss the Strategic Goals and Objectives as previously reported in previous meetings. Senators shared feedback including: the importance of Senate dedicated discussion and deliberations; the relevance of recent Senate action to recommend to the District faculty professional development as an area to be

relied primarily upon; the importance of promoting robust professional development and maintaining professional development resources in support of discipline expertise as necessary for academic quality and culturally responsive andragogy as related to the first strategy; the dedicated role of the Academic Senate in addition to and outside of Town Halls; the existing language as already reflective of robust professional development objectives; the purpose of the strategic goals and objectives, which are broad, in comparison to the mission, vision, and values, which follow after and are more specific; and one concern about the use of the term “ecosystem” in relation to educational communities and campus cultures. Time expired on the issue, and the topic and queue will be brought back at the next meeting.
