

**Updated Recommendation from the
Faculty Professional Development Committee (FPDC)
on the Vision Resource Center (VRC) ([April 23rd – recording available here](#))**

[You can view the presentation from Palomar College to the FPDC \(Dec 11th\) here](#)

***Adopt use of the VRC as an avenue for faculty
to access statewide PD opportunities and conversations***

Suggested Parameters

- Faculty will be able to access statewide PD content and conversations via the VRC calendar.
- When faculty complete PD activities offered through the VRC, these activities will be automatically added to their VRC transcript.
- This transcript will be for the personal use of the faculty member only; SRJC will not use this transcript for anything.
- Faculty will continue to report all their professional development – including that completed via the VRC – through the SIS faculty portal (*as long as is available*) and using the SRJC Forever Flex framework.
- The VRC calendar will not be used for tracking, reporting, or for advertising/offering local opportunities.
