GPA—no difference

The shorter timeframe for Fall better suited my schedule with children. I will be out when they are and have time to relax before the holidays

The shorter semester allows me to focus more and not lose motivation for that particular class

More classes should be available. I had a better time understanding the material that was given

Works well with semester length of Sonoma State. Makes it possible to take classes here that I can't get at SSU

I really like that I can study for my final in a TT class a week before my other finals in regular classes

It fits my pace for learning well and I don't find myself waiting or becoming bored
