

- **Final Senate Meeting of 19-20**

It is clear that we need to have this meeting and so we will. It will be at the regular Academic Senate meeting time, **Wednesday, May 20, 3:15-5:00**

- **Emergency DE Addendum**

Rumors: Faculty need to be approved for online delivery before teaching online in the fall or spring. False.

We have blanket emergency online approval from the Chancellor's office; that means that one doesn't not have to be approved because it is precisely approval that is being waived for this emergency.

This emergency provision doesn't change accessibility regulations. We are still responsible to those.

This blanket approval is contingent on us having a plan for emergencies for the future. The Emergency DE Addendum essentially contains our plan in draft form.

- **Dual Grade Reporting**

Per the Senate's recommendation, IT has made it so that a student's earned letter grade will be preserved in the grade reporting process even if the student has opted for P/NP so that they can change later if they decide it would be advantageous. In general, all branches of the institution have been responsive to Senate recommendations.

- **Virtual Commencement**

We will be filming commencement speeches tomorrow morning for a virtual commencement ceremony. In addition, all graduates will have the options of "walking" in next year's ceremony.
