

Academic Senate President's Report

March 1, 2017

Senate Spring Retreat Feb 24

It went very well. A good couple of hours of free-flowing, though purposeful conversation. These events are really valuable and those who couldn't make it were missed.

Faculty Forum, March 10, 9:00-11:00 AM

Although we do not want to be in the business of excluding anyone, we have decided that this event should be for faculty only. We will have other events which will include our classified colleagues and administration. The focus of this meeting will be on specifically faculty concerns and faculty roles and purview in shared governance. There will be opportunities to contribute questions and comments before, during and after the event. It will be teleconferenced to Petaluma, and it is approved for flex.

ACCCC Regional MQ/Equivalency Workshop

Thursday, March 9, 8:30 to 3:00. This is proving to be a very sticky and complicated issue. It has become especially complicated, especially for CTE disciplines, to determine equivalency for minimum qualifications for faculty. If it is still a possibility, you can still register tomorrow.

ASCCC Area B Meeting

Chabot College, 10:00-3:00, Friday March 24, during Spring Break. Who wants to go?

ASCCC Plenary

We are still finalizing our attendees. It is April 20-22 near SFO. I will be distributing the Resolution Packet between Area B and Plenary for feedback. Please watch for it and solicit feedback from constituents.
