

**Spring 2025 // Academic Senate Work Group  
for Revising the Bylaws and Constitution**

**Team Members: Senators T. Johnson & M. Ohkubo, and President J. Stover**

Progress Report to Academic Senate

**Date:** Wednesday, April 2<sup>nd</sup>, 2025

The Work Group for Revising the Bylaws and Constitution has been working diligently to put together recommendations for changes necessary for the Bylaws and Constitution of the Academic Senate to be congruent and reflect the will of the body. This includes cross-walking approved changes to the Bylaws with existing language in the Constitution, clarification of positions, Senate committees, and process as discussed by the body.

The last time the Constitution and Bylaws were reviewed we did not finish the discussion or action on the Constitution beyond the ASEC expansion and added associate representation changes. Therefore, there are still outstanding items from the last work group we need to address, and they will be brought forward to the body as well.

The results of our discussion of agenda item: *Senate Area Reapportionment: Taskforce Report and Recommendations* will also be incorporated as appropriate.

We plan to bring our final work group recommendations forward during the April 30<sup>th</sup> meeting (which leaves one meeting after [May 7<sup>th</sup>] for potential action).
