- This is the recommendation of our Ethnic Studies Department as updated on 11 October 2024 who are in the process of hiring two new associate faculty members who will help address the current needs of the department in delivering courses and serving students. Jason Seals, Department Chair, also shares this request with the Academic Senate: *“We would like the opportunity to take more time to hire these new associate faculty members and develop new courses before expanding course offerings beyond Ethnic Studies. We are working diligently to grow our department and create new courses that will better serve our students, and we seek the continued support of the institution and our colleagues during this development process. If expanding course offerings must happen, we would support doing so in a year, allowing us sufficient time to prepare.”*
